

age that indicated the ZR-3 to be edging over Spanish soil proved to have been a mistake. The giant bag sighted the Spanish coastline, but kept on her course for the Azores.

Less Than 3,000 Miles More.

From her last reported position the ZR-3 was approximately 650 miles northeast of the Azores and a little less than 3,000 miles from Lakehurst, N. J., where a hangar is yawning for the German ship.

From the Azores the ZR-3 will continue on her southwesterly course as far as the Bermudas, 1,000 miles away, where Dr. Eckener will swing his course to the northwest for the 650 mile flight to Lakehurst.

Friedrichshafen, October 12.—With a crash and roar of propeller-beaten wind and the drone of motors from all

five gondolas that smothered the puny bleating of a band thumping and snorting "Deutschland Uber Alles," the ZR-3 hung poised for a moment above the broad field before the Zeppelin works here and then soared away to a new home in the United States.

Thousands of Germans had gathered as the gray dawn began to lift on the day that would see the "last of the Zeppelins" leave German soil, probably forever. There was weeping as the huge craft was shouldered from her hangar by 40 members of the ground crew at 6:30 o'clock Sunday morning, just 432 years to the day after the landing of Christopher Columbus in the new world.

Builders Weep at Parting.

Huddled together near the great gates was a group of gray-haired technicians who had taken service with Count Zeppelin when the world was laughing at his "mad idea" that a great, sausage-shaped airboat could do more than cost its builder his fortune and reputation for sanity. These workers wept and made no effort to conceal their sorrow. The last remaining monument to their own skill

and the foresight of the old count was before them for the last time.

By the terms of the Versailles treaty further manufacture of Zeppelins in Germany is prohibited.

Remember Her Predecessors.

In the half-light of coming day the thousands of spectators seemed but phantoms and their chorused "Hoche" as the tip of the ZR-3 emerged from the cavern of its home were swallowed by the damp morning air. Mothers, sweethearts and other relatives of the German members of the Zeppelin crew had a privileged position in the front of the crowd and near the hangar. There were tears aplenty, for with all the ZR-3's sturdy construction and splendid trials they remembered, these townsmen of the count, that Zeppelins before this one had sailed away to come to earth, a blackened, twisted mass, strewn with bodies.

A roar of hoarse cheers rent the gloom as the full outline of the craft came into view. The band crashed out the resounding first notes of "Uber Alles." A volunteer chorus from the village brought the life to life with the martial march of the old goose-stepping march, "Hohenfriedberger."

Tossed to Her Start.

Dr. Hugo Eckener, director of the Zeppelin company, who was in the flight, leaped from a window of the pilot gondola at 6:40.

Forty men strung along beneath the

ship listened for his throaty command. "Hoche!" shouted Eckener.

It was the signal to let go.

With a shove from the men underneath the ZR-3 literally was tossed thirty feet into the air; her five motors came to noisy life; the whistles of propeller-driven wind shrieked above the field and the flight had begun.

As they soared upward, members of the Zeppelin crew dropped flowers to the crowd below. Hundreds of women waved crumpled, tear-stained handkerchiefs. From a rear gondola there was a flutter of color. Someone had broken out German flag of the German republic. In the upper corner of the fluttering banner was a huge iron cross.

Another great cheer went up but it never reached the big bag which was wrapped in the racket of its own motors.

Scarcely had the echo of the cry died away when the ZR-3 poked her silvery prow into the dim mist of the Rhine valley above Lake Constance and vanished from view on a course flanked by snowcapped, fog-twined Alps.

Eckener was taking his ship southward to Basle, Switzerland, where a final weather report would be ready for him. On this report depended the continuation of the flight and the selection of a path above the Atlantic.

The report was good and Eckener turned the ship on a westerly course. Soon he was safely sailing above France—the first time since the war that a German-manned Zeppelin has crossed the dim frontier of the republic.

Reports came to Friedrichshafen by radio and telephone. All Germany was anxious, but most of all this little village where the ZR-3 was built.

Bells Toll Prayer.

In all the churches the bells tolled and within there were prayers for a safe journey.

"We will make the trip safely," Eckener said before the start. "We hope to create a new era of relations between America and Germany. We hope to display our German efficiency which, perhaps, may lead to the abrogation of the regulations forbidding the construction of more Zeppelins here."

That is the way all Germany feels about it. The ZR-3 is carrying the honor of the country that built it, as well as the good wishes of the world.

ZEPPELIN SIGHTED TWICE IN FRANCE.

Paris, October 12.—(By the Associated Press.)—The ZR-3 sped across France today at about 80 miles an hour and at such a great altitude that only a few persons saw her, particularly as she steered clear of the larger towns. The airship, so far as reported, was sighted only twice in France near the east frontier, and her wireless signals were caught as she passed close to Bordeaux.

Departing from France, the dirigible was sighted first at 8:40 a. m. over Belfort, a short distance west of the German-Swiss frontier along France's eastern boundary. She then turned slightly southward toward Bordeaux in sight of the Alps and was seen again near Montbéliard, 30 miles to the west, flying high and fast. It is estimated that over France and Switzerland she maintained an average altitude of 3,000 feet, and she crossed France in less than six hours.

The next sign of life for the French from the trans-Atlantic voyager came when the Bordeaux wireless station caught the airship's location signals as she was leaving French soil for the Bay of Biscay, where she began her great sea flight to Lakehurst.

Except for these three reports, the airship might have been a myth to the French, for although the newspapers, aviation services and thousands of watchers in scores of towns were on the alert, there was no other news of her from those on land.

The ZR-3 flew over Basle, Switzerland, soon after she left Friedrichshafen. In this section the fog was quite dense. She followed the Rhine until opposite Belfort when she turned westward and gradually swung slightly to the left. As Zeppelin's speed would indicate, she followed a fairly direct line from Belfort to the Bordeaux region and probably passed over the most fertile settled country and at such a height that many of the thousands who watched for her failed to get a glimpse of the airship.

PEACEMAKER SLAIN

Attempt To Smooth Out Quarrel Costs His Life.

Heber Springs, Ark., October 12.—Albert Smith, aged 35, of this city, was shot and killed early today at Miller, seven miles west of here, when he attempted to act as peacemaker in a quarrel which had developed at the residence of Richard Chapman, aged 19, who is alleged to have fired the bullet which killed Smith, and John K. Chapman, his father, are under arrest.

Smith attempted to make peace between young Chapman and Joe Starr, who were quarreling and Chapman, officials assert, shot Smith through the heart.

McCLAIN HEARING SCHEDULED TODAY

Continued From Page 1.

asserted. "He felt when he tripped over a short sign board and struck his head when he hit the ground. Persons who have made post-mortem examinations of the body have declared that there is no indication that he met a violent death."

"I am informed that a reporter of a local newspaper, in the presence of detectives and underwriters, was told by S. T. Croan, brother-in-law of Mr. Owens, that he (Owens) had a 'weak heart' and had failed to pass several physical examinations, the cause of which was attributed to a weak heart."

Raps Coan's Denial.

"I see now where Coan has repudiated this statement, but it is verified and I am going to submit it as testimony. Coan was not surprised when informed of the death of his brother-in-law, immediately referring to Owens' weak heart," McClain asserted.

McClain has retained Dorsey & Lambert, Westmoreland & Wood and Jones & Wood. Recorder A. W. Callaway will hear the case this afternoon at 2:30 o'clock.

The scuffle which resulted in Owens' death followed an alleged argument between him and McClain over the parking of an automobile, according to police.

The scuffle which preceded Owens' death followed an alleged argument over the parking of an automobile in which women companions of both men participated, it is said. The principals in the fatal scuffle interferred when the women clashed, according to police.

Mrs. C. F. Brown, of a North Boulevard address, McClain's companion, who was arrested on the night of Owens' death on a blanket charge of suspicion, has been released and was given a subpoena as a material witness in McClain's hearing set for this afternoon.

RUPTURE EXPERT

FOR Men, Women and Children

COMING TO ATLANTA

Representing

W. S. RICE

ADAMS, N. Y.

The Rice Rupture Method Expert, Mr. C. H. Bassinger, personal representative of William S. Rice, Adams, N. Y., will be at the Cecil Hotel, Atlanta, Ga., Monday, Tuesday and Wednesday, Oct. 13, 14 and 15.

Every ruptured man, woman and child should take advantage of this great opportunity.

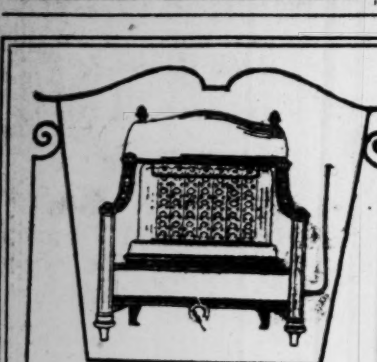

The Rice Method for Rupture is known the world over. You can now see this Method demonstrated and have a Rice Appliance fitted to you. Absolutely no charge unless you are satisfied to keep the Outfit after having the Appliance adjusted and you see how perfectly and comfortably it holds. No harsh, deep-pressure springs; nothing to gouge the flesh and make you sore. Can be worn night and day with positive comfort. Soft, rubber-like composition pad, any degree of pressure required.

Don't wear a truss all your life when thousands have reported cures through using the Rice Method. Why suffer the burden of rupture if there is a chance to be free from truss-wearing forever? Anyway, it will cost you nothing to come in and learn all about the Rice Method and the wonderful opportunity for help and cure it offers in your case. Remember this Expert will be here only three days, then your opportunity will be gone. Just ask at the hotel desk for the Rice Expert and he will do the rest. Call any time from 9 to 12 a. m., 2 to 5 p. m., or 7 to 9 p. m.

Don't miss this great opportunity to see this Expert on Hernia.

WM. S. RICE, Inc., Adams, N. Y. (adv.)

# In the Course of the ZR 3

35 ships from the International Mercantile Marine Company's vast fleet of 109 vessels are moving on the charted sea lanes between Europe and the United States today as the ZR-3 follows her air course across the Atlantic.

Sharp lookouts will be kept for the giant dirigible by men alert to exchange a cheery greeting or to render any assistance that the exigencies of the voyage may require.

These 35 vessels range in size from the world's largest ship, Majestic, to the smaller cabin class ship and the trim freighter. They provide a complete ocean steamship service for travelers and shippers to every European country, either direct or through convenient connections, and extending with other International Mercantile Marine services to more than 50 ports on the Atlantic and Pacific oceans.

## Labor Opens Drive To Beat Aspirants To Congress Seats

Washington, October 12.—The American Federation of Labor's campaign committee, headed by Samuel Gompers, today announced it had begun distribution among workers of 3,000,000 leaflets urging defeat of congressional candidates deemed unfriendly to labor.

Stating that 170 friendly candidates were chosen two years ago, the leaflet said election of 250 such candidates in the present campaign would "give the non-partisan progressive forces complete working control of congress."

"There is in your district a candidate who deserves your active support irrespective of party affiliation," it continues. "Take off your coat for that candidate. See that reaction is defeated."

7 PERSONS HURT IN AUTO CRASHES

Continued From Page 1.

bond after a charge of reckless driving had been made against him.

Several Atlantans miraculously escaped serious injury Sunday in a series of automobile crashes in various parts of the city. Approximately \$3,000 worth of damage was done in five collisions during the day and night, none of the cars' occupants, however, receiving injuries.

An automobile driven by E. W. Harper, of 200 Chestnut street, crashed into a machine operated by C. E. Wood, of 11 Fortune street, at Bellwood avenue and Travis street. Both cars were badly damaged and a charge of reckless driving was docketed against both drivers.

A truck operated by Jim Hill, a negro, of 17 Clifton street, collided with a car driven by Talmadge Harris, of The Keeley company, at Houston and Fourth streets. Both machines were practically demolished.

In a crash at Fitzgerald street and Edgewood avenue, two cars, one driven by B. A. Shepherd, of 28 West Peachtree place, and the other by C. F. Fitts, of 74 Gordon street, were badly damaged. Both drivers were charged with reckless driving.

An automobile driven by H. Golden, of 37 Central avenue, collided with a car operated by L. I. Johnson, of 24 Woodman street, badly damaging both machines. No cases were made at the request of the two men.

COOLIDGE RECORD IN POLICE STRIKE

Continued From Page 1.

tive of the state but as actual, responsible head of the Boston police department.

"The statement recites that it was Mayor Andrew J. Peters, and not Governor Calvin Coolidge, who actually made the crisis, dealt with it by courageous, drastic action, and restored law and order."

The republican statement said: "Refutes Democratic Charges."

"Henry Wyman, of Boston, who was attorney general of Massachusetts at the time of the Boston police strike, made the following statement today: 'The statement given out from democratic headquarters relative to the Boston police strike is entirely inaccurate and misleading. Important documents which are necessary to give any adequate understanding of the situation have been suppressed, and the general attitude of President Coolidge, Commissioner Curtis and Mayor Peters has been distorted, so that as an accurate record of what took place at that time the article is of no value.'

"I was at the state guard at the time and was in constant conference with President Coolidge and had full information of every action which he took. Mayor Peters had every authority to call out all the state guard in the city of Boston without going to the governor, nevertheless, the governor offered to call out that state guard, which was in Boston, and that in the rest of the state which he had ordered the adjutant general to hold in readiness at any time the mayor requested it. This offer was made before the police left their posts."

DAVIS' OPTIMISM GAINS IMPETUS

Continued From Page 1.

somewhat dubious about winning the election outright, but they expect that if they are defeated, La Follette will be able to force it into congress and there they confidently expect Davis to be chosen, probably with the aid of a few republican votes. On this basis, democrats regard Davis as having an excellent chance of being president.

Has Kept Drive Going.

This prospect has really been the only thing that has kept the campaign going, because for the past weeks the party leaders have been despondent of obtaining the 206 electoral votes.

That was when there seemed to be little hope of carrying Ohio, Indiana or Illinois. But in the past 10 days a change has come over the democratic leaders. Whether justifiably or not, there is absolutely no doubt but that they believe a swing has set in for Davis in these states.

Ten days ago plans were made to have Davis speak in Ohio the past week. But reports from leaders there were so pessimistic that it was thought useless to have him speak there at that time. Now the plan is to send him to Cleveland and several other points in Ohio before he leaves for Indiana, where he is to speak.

Democrats expect to profit by this newly-registered vote. Republicans have been pinning their hopes to Coolidge, but he seems to have passed his peak. Democrats say if they had six weeks instead of three, they would be certain of the state.

Illinois is another state for which the democrats have hopes. They have just added several Illinois points to the Davis itinerary and he has decided to make a visit to Chicago on the present trip. Several dates have been held open so that Davis can be shoved into whatever territory seems most worth while.

"The situation in Illinois is so good that we feel Davis is going to clinch it on this trip," said Senator Key Pittman of Nevada, director of the speakers' bureau for the democratic national committee. "If we don't feel that way, we would send Davis to some of the other places where he could do good."

La Follette and internal republican troubles are helping the democrats in Illinois, Pittman believes.

City life and Constipation—fellow conspirators

If you are one of these necessary people in the business world—the woman or man whose duties demand your continuous personal attention—you must guard not only against constipation, but also against laxatives that interrupt you during business or disturb your nightly rest.

Pluto Water is the physic for you to take because it acts within 30 minutes to two hours. It gives your intestinal tract a thorough cleansing at a time that is convenient to you. A water physic, it is safe and non-gripping.

Time counts. Neglected constipation is positively perilous to general health this time of year. Keep a bottle of quick-action Pluto on hand in your home always. Physicians prescribe it, druggists sell it, and it is bottled at famous French Lick Springs, Indiana.

check and tabulate each day's attendance figures. "We do know this," Mr. Striplin said, "that on two or three days of the fair just closed we had much larger crowds than on corresponding days in 1923. However, official figures for the week may not be much larger than last year's total," he said.

Fair officials were jubilant Sunday over the ideal weather conditions throughout the week and the general harmony and good will among exhibitors. "We have never had a fair with so little friction," Mr. Striplin said. "Every exhibitor appeared highly satisfied with awards and the good humor and cordial friendly spirit of rivalry was in evidence each day."

Practically all Rubin & Cherry shows were ready to depart from the city Sunday night after one of the most successful engagements in many weeks, show officials said. Exhibitors were busy during the day arranging exhibits for return to respective sections of the south, while a number of exhibitors of livestock disposed of hogs and cows to local dealers during the week-end.

### Court Opens Monday.

Huntsville, Ala., October 12.—(Special)—The October term of federal district court for the northeastern division of the northern district of Alabama will open Monday morning with Judge W. I. Grubb presiding. The term is expected to continue through the whole week.

## PROMINENT ATLANTAN VICTIM OF APOPLEXY

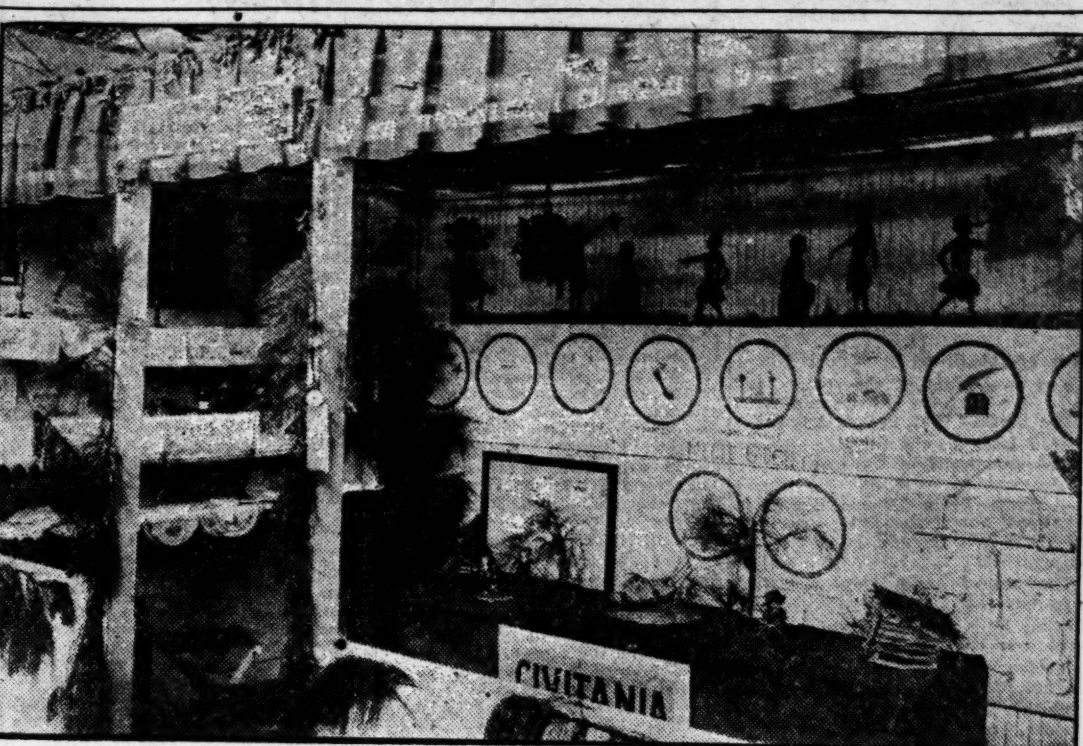

William J. Lynch, well-known Atlantan, died suddenly at his home, 213 North Moreland avenue, early Sunday afternoon, at the age of 46. He had attended Sacred Heart church, of which he was a member, during the morning. Death was said to have been due to a stroke of apoplexy.

The deceased was office manager of the local branch of the Burroughs Adding Machine company, and was a native Atlantan. Mr. Lynch was a graduate of the Boys' High school, a member of the Knights of Columbus, and a prominent figure in business and civic activities in Atlanta for several years.

Mr. Lynch is survived, besides his widow, by a son, William J. Lynch, Jr.; two brothers, James F. and Thomas A., and two sisters, Mrs. W. B. Manning and Mrs. J. A. Bradbury, all of Atlanta.

Funeral services are to be held from the Sacred Heart church Tuesday morning, the time to be announced later, by T. C. Bazemore, in charge of arrangements.

## Atlanta Girl Scout Booth Awarded First Prize in Southeastern Fair

A glimpse of the attractive booth of the Atlanta Girl Scouts which was awarded first prize in the Junior department among booths at the Southeastern fair.

The girl scout booth at the Southeastern fair, awarded first prize in the Junior department, was a demonstration of the way in which scouting can be put into practical application. The exhibit covered every angle of scouting and the work of Girl Scouts, and attracted much interest among fair visitors.

Special interest was aroused by the fringe which decorated the back of the booth. This consisted of symbols of a few of the merit badges drawn in colored chalk, topped by silhouettes of girl scouts in such familiar activities as fire-building, cooking and signaling, and it was made by two scouts who had received artist merit badges.

No advance preparation for the booth was necessary, all the articles displayed being made by scouts and presented by them for their tests in needlework, millinery, canning, craftsmanship and other arts.

The forty-seven different lines in which girl scouts may win proficiency or merit badges, were outlined in displays in the booth and cover the following subjects: Personal and community hygiene, home-making in all its phases, entertaining, interior decorating, nature study, astronomy, music, art, woodcraft, first aid, athletics, gardening, child care, thrift, citizenship and others.

The girl scout program is so broad and varied that any girl can follow the individual lines which interest her most. It is pointed out, and frequently a girl finds her life work through some activity which began in her girl scout troop. While working on a poster contest the captain of one of the Atlanta troops discovered that a girl in her troop had unusual talent for drawing.

The girl's parents were unable to give her the opportunity to develop the talent, so the scout captain took samples of her work to one of the leading artists of the city who declared that it was of sufficient merit to justify awarding her an art scholarship. She is now pursuing her study of art.

The work of the girl scout organization is giving to 700 Atlanta girls opportunities for wholesome recreation and love of out-door life. The training in character-building is being accomplished by the unselfish, patriotic and enthusiastic work of the fifty or more women now giving their services as volunteer leaders of troops, backed by the faith of the community shown in the financial support for necessary expenses, contributed through the Community Chest, of which the girl scout organization is a member.

## Colored Race Urged To Appreciate Aid Of Whites of City

A final drive to raise the money necessary for completion of the last dormitory floor of the Butler Street Y. M. C. A. was initiated Sunday by Major J. H. Ward, director of the veterans' hospital for disabled soldiers at Tuskegee, Ala., with an appeal to a large gathering at Big Bethel church at 3:30 o'clock in the afternoon.

Total subscriptions to date amount to \$2,000, he said, and the campaign is to continue until the necessary \$6,000 is raised. There are yet many friends of the movement to be canvassed, he declared. The largest cash contribution Sunday was by B. J. Davis and was a check for \$50.

In his appeal Major Ward declared that help of white people is gradually and steadily increasing and is aiding in the upbuilding of the colored race. He urged that members of the colored race show their appreciation of this aid.

Other speakers on the program Sunday were Dr. E. R. Carter and Dr. A. D. Jones. J. H. Lewis, president of Morris Brown university, presided. The Big Bethel choir rendered several numbers and a violin solo was played by Oliver Jackson, of Morehouse college.

## SCOTTISH RITE PLANS FOR BIG CONVOCATION

Officers of the local bodies of the Ancient and Accepted Scottish Rite of Free Masonry are engaged in working out plans for the thirtieth general convocation, November 18-21, at the Masonic temple. This is the semi-annual reunion of Masons of that rite and a large class of candidates will receive the degrees in the four-day session, it is announced.

Plans call for dinner at the temple each evening, and on Friday evening, at the conclusion of the thirty-second degree, the annual banquet of the Atlanta convocation will be held, at which it is expected that a number of prominent Georgia Masons will be present.

On the last day of the convocation members will visit the Scottish Rite Hospital for Crippled Children, which is the pride of Atlanta bodies of the rite, and the source and inspiration of many similar institutions now being established throughout the United States and Canada.

It is expected that a large representation of out-of-town Masons will be in the class taking the degrees. The list of applications for the reunion will close on November 6.

## Funeral Services To Be Held Tuesday For S. H. Dudley

S. H. Dudley, of 423 East Washington street, East Point, died at a private sanitarium Sunday morning at 3 o'clock at the age of 29.

He was connected with the Putsch Company, and is survived by his widow; his parents, Mr. and Mrs. H. F. Dudley, of Dallas, Ga.; a brother, I. Dudley, also of Dallas; three sisters, Mrs. H. D. Summers, of Hiram, Ga.; Mrs. Noville Camp, of Dallas; and Mrs. Arthur Dudley, of Greenburg & Bond at 10:30 o'clock Tuesday morning. Rev. Marvin Williams will officiate.

## How Many Pounds Do You Want to Gain?

If you are thin and want to gain weight write Dr. E. R. Alexander, 1904 Gateway Station, Kansas City, Mo., for a sample of his famous "mines." They are a recomposing amazing results in hundreds of cases and the sample is absolutely free.—(adv.)

## 'DISCOVERY DAY' OBSERVED HERE

With a banquet Sunday night at 8 o'clock at the Ansley hotel, the Atlanta council 660 of the Knights of Columbus, closed a day of celebration in commemoration of the four hundred and thirty-second anniversary of the discovery of America by Columbus on October 12, 1492. "Discovery Day" celebrations are annual affairs.

The program Sunday night opened with the singing of "America" by all present. Rev. Emmett M. Walsh followed with the invocation. Following the banquet itself, which was attended by popular musical selections, Toastmaster W. P. Jones assumed charge of the exercises. He introduced a number of speakers who made short talks.

The welcome address was made by A. A. Baumstark, after which Rev. O. N. Jackson spoke on "What the Knights of Columbus Means to Atlanta." "Christian Tolerance" was the subject of an address delivered by Judge James K. Hines, of the supreme court of Georgia. Charles B. Cannon followed with an address on the subject, "Our Noble Selves." Rev. Father James A. Horton, of Sacred Heart church, gave thanksgiving and the day's events closed with the singing of "The Star Spangled Banner."

Celebration day exercises opened at 11 o'clock Sunday morning when members of the order attended Sacred Heart church services. Knights then marched in a body to the Knights of Columbus hall where first, second and third degrees of the order were conferred.

## SEEK TO IDENTIFY BODY OF SUICIDE

Chicago, October 12.—Belief that a young woman, found dead today in a fashionable Lake Shore hotel where she was registered at "Mrs. B. Smith, 1012 Park avenue, Newark, N. J.," may be Edith Burchell, 29, of Dover, N. J., was expressed by the police searching for clues to her identity. She had killed herself with poison. Labels had been removed from her clothing and only a note, signed "Mrs. B. Smith," directing the cremation of her body and stating "I have no relatives or friends," was found. She wore a wedding ring.

Dover, N. J., authorities yesterday asked Chicago police to search for Miss Burchell, who wrote her parents that she planned to commit suicide here and sent her clothing home by parcel post.

## Infant Son Dies.

The infant son of Mr. and Mrs. S. H. Arrowood, of 203 Kimball street, died Sunday night at their residence. The father of the deceased child is a member of the Atlanta police force. Besides its father and mother the infant is survived by a sister, Mrs. M. Camp, of Atlanta.

The funeral will be held Monday afternoon at 3 o'clock from the residence.

will do it!

## MEMORIAL GIFTS MADE TO CHURCH

Two handsome memorial gifts were presented to the Church of Our Saviour Sunday morning at 11 o'clock, at the temporary quarters, Highland and Blue Ridge avenues.

The first was a gold Communion Service set, given by Miss John Bowler, who came in possession of the set some time ago from the Reverend Charles C. Pierce, of Philadelphia, formerly a chaplain in the United States army, and stationed in the Philippine Islands, where he used the set.

The other gift was a large altar cross bearing the inscription "To the Glory of God, and in memory of Prileau, son of Isabel Giffner and J. C. Jackson, January 31, 1924-February 5, 1927."

The altar was beautifully decorated with cut flowers by Mrs. Hubert Anderson, in honor of her mother who died July 29, Mrs. Frances Britton Sewell, whose birthday is October 12.

The humid climate of Japan rapidly destroys steel unless it is incased in concrete.

## EACH RADIATOR AN INDEPENDENT STEAM HEATING PLANT

If gas piping is already provided in the building, the installation of Clow Gasteam is the simplest kind of a gas-fitting job.

No water pipe connections are made. The water is contained in a chamber of the radiator, which you refill every two or three weeks.

## Easy to Install—Easy to Use

Clow Gasteam is the easiest heat to use as well as to install. Simply turn on the gas and strike a match.

It is automatically controlled, and adjusts the amount of heat to the ups and downs of the thermometer outside.

Each radiator is a separate heating unit. You can turn on as many or as few as you please.

## Not "Supplementary" Heating

Clow Gasteam offers a complete heating system, supplanting boiler, steam pipes, and solid or liquid fuel.

Clow Gasteam is not merely "auxiliary" heating apparatus; it is used throughout the house, and in apartments, stores, office buildings, etc., all over the country.

Inquire about Clow Gasteam before deciding on your heating equipment. Thousands of satisfied users everywhere. Write or call us today.

## Reputation!

It's a big factor in business. And it takes time to build up a good one.

A long record for high quality, fair prices, good service, square dealing is the greatest of business builders.

Careful buyers think of that first. Especially in ordering coal—because all coal looks pretty much alike.

## CAMPBELL COAL

has gone into the same homes, year after year, while children were born, grew up, married—and ordered Campbell Coal for their own homes.

It must have given satisfaction.

## QUESTIONS and ANSWERS

Any reader may obtain a personal reply to any answerable question of fact or information by writing to Washington Bureau, Atlanta Constitution, 1322 New York Avenue, N. W., Washington, D. C., enclosing 3 cents in stamps. Legal, medical and marital advice cannot be given, nor can extended research be undertaken. Unsigned letters cannot be answered. All letters are confidential.

What proportion of various kinds of foods should the average normal diet for an adult contain? About 20 per cent vegetables and fruits, 25 per cent meat, e. g., milk and similar foods; 25 per cent cereals, 10 per cent fats and oils, 20 per cent fats and oils.

What city in the United States has the highest proportion of negroes to its total population, and what city in the U. S. has the highest actual number of negro inhabitants? Birmingham, Ala., has the highest percentage of negroes to total population, and New York city has the largest number of negro inhabitants.

What is the object of using double ports in engine valves? Engine valves are made doubleported in order to get the maximum port opening with the minimum of valve travel. High speed engines usually employ doubleported valves.

About what percentage of the population of the United States cannot read and write? According to the 1920 census, 6 per cent of the population of continental United States, 10 years of age and over, is illiterate.

What is the composition of raw milk? Water, 87 per cent; protein, 3.3 per cent; fats, 4 per cent; carbohydrates, 5 per cent; ash, .7 per cent.

What was the first American house in which gas was used for lighting? The home of David Melville at Newport, Rhode Island.

My dog will not stay with me when I take her out for exercise; how can I train her to do so? Take her out on a leash; when she attempts to get away, scold her and threaten her with a whip, but do not whip her unless absolutely necessary and then only lightly. After the first few attempts to get away she will realize what is expected of her, and in a short time she will be trained to stay near you so that you can discipline her with the leash. A dog will gladly obey if its master can make it understand what is expected of it.

What does the word "Hadramut" mean? I find it on a globe of the world as the name of a line that seems to run around the globe. Hadramut is a subdivision of Arabia. You probably noticed the name near the line which indicates the Tropic of Cancer, but it is a place name and not the name of this parallel of latitude.

What date was President McKinley shot and what date did he die? He was shot September 6, 1901, and died September 14, 1901.

When did the state of Missouri ratify the prohibition amendment to the constitution of the U. S.? January 16, 1919.

What is the penny of 1858 worth? If the one-cent piece dated 1858 is in new condition and bears the stamp of an Indian head, it commands a premium of from 25 to 50c.

Can my father and mother come to this country as non-quota immigrants? Yes, if you are a naturalized American citizen, they can do so. They must write a non-quota visa for this purpose. Write to the commission general of immigration, Washington, D. C., for the proper application form.

Who was Fatima? (1) The name of Mohammed's favorite daughter, (2) a character in the story of Aladdin in the "Arabian Nights," (3) Bluebeard's last wife, the only one not murdered by him.

What is the difference between a farce and a comedy? In farce the characters are what they are because the working of the plot requires them to be this and not something else, while in comedy the plot is subordinated to the characters.

What was Faerlain wine? One of the favorite wines of the Romans, so called from Mount Faerlain, the district in which it was grown, in the northern portion of Campania, between the Massian hills and the northern bank of the Volturnus. It is described by Horace as in his surpassing all other wines in repute.

When was King Humbert of Italy assassinated? Sunday, July 29, 1900.

By whom and when was the laccolite theory presented? By G. K. Gilbert, about 1877.

What do the initials F. F. V. mean? First Families of Virginia.

Which signer of the Declaration of Independence was a Roman Catholic? Charles Carroll.

If a man had a compass in his hand and stood on the top of a mountain containing iron where would the needle of the compass point? It would continue to point to the magnetic north.

## .. SERMONS TO LIVE BY ..

BY ELAM FRANKLIN DEMPSEY

Text: "The Kingdom of Heaven is within you."

Said English Mary, "out open my heart and you will find 'Calais' written upon it."

Said the French soldier to the surgeon operating on his wound, "cut a little deeper toward the heart and you will find the Emperor."

These are just two ways of saying that the kingdoms that count with us are within us.

Well, has it been said, that "withinness" is typical of all true Christian experience.

The state of the heart declares to what kingdom one belongs.

Very fair may be the surface but God judges not by appearance but by the heart, for it is a God of truth and the truth of our natures is found in the heart of us.

What are we when we feel entirely alone? What do we do when we are free of outside restraint that keeps us decent.

Examine that heart of thine—it is deceitful above all things, unless washed in the blood of the Lamb."

## World's Protestant Leaders Gather Here in December

Official representatives of 28 Protestant communions will gather in Atlanta, December 3-9, for the quadrennial meeting of the federal council of the Churches of Christ in America.

Local leaders say that it will be the most representative gathering of churchmen in many years and that its deliberations will have far-reaching effects in all denominations.

More than 20,000,000 communicants are included in the churches which will be represented at the gathering. The policies of the churches in their joint work and their relation to each other for the coming four years will be the chief subject of deliberation. Under its constitution the federal council is a cooperative organization, through which churches do the things which they can do better together than alone. Its actions are not binding on any individual communion, but are advisory and suggestive and designed to secure a common approach to many important problems of the part of the various churches. The work of the last quadrennium will be reviewed. It has been, according to

chairman of the committee on arrangements.

The meeting will mark the end of the term of Dr. Robert E. Speer of New York, as president. Under the constitution he cannot succeed himself.

Regular sessions will be devoted to a consideration of the work of the council and its program for the coming four years. In addition to these business sessions, there will be two series of public meetings, one at noon each day centered around the general theme, "The Call to Personal Religion," and one in the evenings on the general subject, "The Common Tasks of the Churches."

Importance Stressed. In a brief statement as to the importance of the meetings, President Speer, of the council, said:

"A quadrennial session of the federal council of churches always marks an important stage in the development of the movement for Christian cooperation. This session this year has even more than ordinary significance because of the solid progress made during the last four years and the importance of considering how these gains may be consolidated and the interdenominational movement developed further in a way which will command the full loyalty and support of the churches."

The program committee, under the chairmanship of Bishop James Cannon, Jr., of the Methodist Episcopal Church, South, has outlined a program which promises to be of even greater interest and value than the notable programs of other quadrennial meetings. The program will be announced shortly.

Constituent denominations of the council are Northern Baptist convention, National Baptist convention, Free Baptist Churches, Christian Church, Churches of God in N. A. (General Eldership), Congregational Churches, Disciples of Christ, Friends Evangelical Church, Evangelical Synod of N. A., Methodist Episcopal Church, Methodist Episcopal Church, Southern, Methodist Episcopal Church, M. E. Church, Zion Church, Colored M. E. Church in America, Methodist Protestant Church, Moravian Church, Presbyterian Church in the U. S. A., Presbyterian Church in the U. S. A., South, Primitive Methodist Church, Protestant Episcopal Commission on Christian Unity and Department of Christian Social Service, Reformed Church in America, Reformed Church in the U. S., Reformed Episcopal Church, Seventh Day Baptist Church, United Brethren Church, United Presbyterian Church, United Lutheran Church (Consultative Body).

Seventy-five lay Baptist churches, United Brethren Church, United Presbyterian Church, United Lutheran Church (Consultative Body).

President, Robert E. Speer, of New York, honorary secretary, Elias B. Sanford, of Hartford, Conn.; recording secretary, Rev. Rivington D. Lord,

of Brooklyn, N. Y.; treasurer, Alfred R. Kimball, of West Orange, N. J.; chairman of executive committee, Rev. F. W. Barnham, of St. Louis, Mo.; vice chairman, Bishop John R. Moore, of Dallas, Texas; Professor John R. Hawkins, of Washington, D. C.; Rev. Rufus W. Miller, of Philadelphia, Pa.; general secretaries, Rev. Charles S. Macfarland, Rev. Samuel McCrea Carter.

"Why should I be singled out and the question pronounced to no other candidate? Indeed, the question is of much greater importance when applied to a member of the house than to a senator. The senate elects a vice president—an insignificant office as compared with the president. There are six members of the house from Nebraska—three repub-

cans and three democrats—and every one of them is a candidate for re-election. Why not ask them how they will vote in case the election of president is thrown into the house?"

## Norris To Cast Vote for Winner Of Nebraska Race

Bridgeport, Neb., October 12.—In the event that the presidential election is thrown into congress Senator George W. Norris, republican, Nebraska, will vote for the candidate who carries Nebraska, he told voters of Bridgeport and vicinity in an address here last night.

The senator's declaration was made as an answer to a letter from Dr. Ira E. Atkinson, a republican worker of Lincoln, asking Senator Norris how he would cast his vote if such a situation arose.

"May I not ask, however, why this question appears to be asked of me alone?" he queried his audience.

Anything  
You Can't Eat?

If it's good to eat, of course. If your stomach hurts, or gets gassy after eating corn, beef and cabbage, bacon and eggs, mince pie and cheese, or doughnuts and coffee, or lobster salad keeps you awake all night, ask the man or woman who backs on.

STUART'S  
Dyspepsia Tablets

A host of men, who face a square meal on the same terms they shake hands with their best friend, owe their boldness to these tablets. One or two after eating give the stomach the alkaline aid, they rest the stomach and prevent distress due to dyspepsia. Get a box of these tablets today and join the throng of satisfied eaters.

LIFE INSURANCE IS A FRIEND IN NEED

## The Great Shock Absorber, LIFE INSURANCE

- Times are prosperous. Rich harvests are here, in Georgia.
- Four years ago things were different.
- Money was running to cover, then. Those were stressful times.
- FOUR YEARS AGO LIFE INSURANCE WAS QUIETLY AT WORK THROUGHOUT THE LAND, ABSORBING THE IMPACT OF HARD TIMES.
- Do not forget that fact.

Many a man was saved from ruin by being able to borrow—from his Life Insurance company, on no other security than his policy—the money that met some urgent vital need; the money he could have gotten nowhere else.

"MAKE HAY WHILE THE SUN SHINES"  
So says the old adage. And the sun is shining these days in Georgia. **INSURE NOW!** You'll see need again.

## "That Extra Measure of Service"

ALMOST any bank is a good bank—so long as you require only routine banking service. It is when something unusual comes up that the Citizens and Southern Bank becomes distinctive. The Citizens and Southern Bank is more than a bank. It is a well-balanced financial organization with nine offices in the four principal cities of Georgia, and with correspondents in every city of importance throughout the entire South.

Citizens and Southern capital and surplus is large enough to enable us to promptly meet the requirements of the South's largest corporations. Our experience with thousands of small accounts that have grown to large proportions taught us long ago that we must give adequate service to small accounts if we expect to have the privilege of serving larger ones.

You will find the officers of the Citizens and Southern Bank ready and anxious to help you work out special problems, and the entire organization willing to go to any trouble to give you "that extra measure of service" that causes those who have dealt with us to so heartily recommend us to their friends.

## R. F. Knox Builds Plant That Is Credit to Atlanta

There is many a man in Atlanta who, having first seen the many opportunities presented in his line, decided to cast his lot here and grow up with the city.

Among the many who have done this is Mr. R. F. Knox, the well-known sheet metal man who, in coming to Atlanta more than 35 years ago, began in the sheet metal business, and after being workman, foreman and superintendent for one firm for over 23 years, began business for himself 11 years ago.

From the outset the public recognized the superior work and prompt service Mr. Knox's firm was giving them and they began to give the firm new and larger contracts and it was enabled to increase its force and equipment from time to time until it became imperative that the firm get into larger quarters.

After considering the matter some time, Mr. Knox decided to build his own building to suit the fast-growing business. He has just completed a handsome building 100x100 at 573-581 Marietta street, that is a model of its kind.

In this building Mr. Knox had the welfare and comfort of his men in mind and provided plenty of light and air in summertime and ample steam heat when needed and a number of shower baths are conveniently located for the use of the men, making it all in all a splendid place to work in winter or summer.

The sheet metal service given by R. F. Knox company includes skylights, ventilators, cornices, gutters,

**R. F. KNOX.**  
Prominent Atlanta master mechanic who built model plant.

metal ceilings, special jobbing, garbage chutes and furnace work. The company manufactures a concrete roofing tile that is handsome in appearance, durable and with practical advantages on account of its interlocking features. Refining ice cream and milk cans is one of the many specialties of this busy firm and they are now having much of this work sent to them by many ice cream dealers and dairymen in all parts of the southeast.

## Pickert Plumbing Company Pays Freight 100 Miles

Atlanta has in the Pickert Plumbing company an establishment that is one of the largest of its kind in the entire south and compares very favorably with the large mail-order firms that send out plumbing supplies.

This firm handles everything needed in the plumbing business and bring their out-of-town supplies into Atlanta at the lowest possible cost, to sell at a great saving both wholesale and retail. As the Pickert Plumbing company have great quantities of supplies on hand and no big overhead expense, they are selling plumbing supplies even less than the large mail-order houses and any large or small shop or individual anywhere in the south that uses plumbing material of any kind can save money and time by ordering from this firm.

This firm does not install any work nor do they employ any plumbers, but sell direct to the home owner or large or small plumber. The firm has a large mail-order house and no matter how large or small your wants may be in the plumbing line. In their display room they have a line of popular-priced enamelware fixtures of a beautiful design that is known as "A" grade every piece here.

## Atlanta Firm Doing Much In All Parts of Southeast

Most all builders of large buildings of all kinds anywhere in the south have come to learn it is very much to their advantage to have our many good building contractors bid on their work.

It is not an uncommon sight every day now, to see some one of the many builders, arriving on or off a train with a set of plans that they have been successful in getting the contracts.

It very often happens that one firm throws the plans for building, another furnishes one kind of material, somebody else another kind, the builder does the work, the plumber installs the plumbing, the electrician lights things up, and our good bank and interior fixtures firms do the fine woodwork.

When it comes to the painting then most all large builders get in touch with the William Wilson Painting company for here is an organization that through many years of experience are equipped to handle the big jobs, so that they do not interfere with the entire building being complete on contract time.

This firm just completed painting the new Grant store on Whitehall street, the big Edwards hotel in Jacksonville, Miss., and the bleachery cotton mills that has just been built at Thomaston, Ga.

One large force of men have been busy on the new Henry Grady hotel, in Atlanta, and another on the big Bay Shore apartment house in Tampa, Fla., the painting and decoration on this big Tampa apartment house is considered a very nice piece of work and reflects much to the credit of this firm.

During the past week the William Wilson company received the contract to do the painting and decorating on the new \$1,000,000 Andrew Jackson hotel being built in Nashville, Tenn. The specifications on this work call for a very fine job in decorating and is another case where particular people wanted some good work, well done.

## DUBLIN MAKES PLANS FOR FAIR IN NOVEMBER

Dublin, Ga., October 12.—(Special.)—Plans are completed for the fair which will be held here November 10-15. The T. A. Wolfe shows will furnish midway attractions. E. R. Jordan, of Macon, is manager, and J. B. Jones, of this city, assistant manager. County Agent J. F. Hart and Mrs. Edith Ward, county home demonstration agent, are aiding the boys' and girls' clubs of the county in preparing their exhibits.

An excellent display of live stock, farm products, poultry and work of the women of the city and county will be made.

## ATLANTA FILLING STATION CONTAINS MANY DEPARTMENTS

About the busiest automobile filling and service station in Atlanta or vicinity is the J. L. Carroll company, corner Spring and Harris streets.

This company is more than a filling station in the sense that the term is used and is more like a company of many departments with an experienced expert in charge of each department.

## Harvey Weatherly Sr., Making Gas Record

In the gas and oil department, Harvey Weatherly, Sr., is in charge and in this line there is no more popular or accommodating man in Atlanta. Mr. Weatherly has just recently become affiliated again with this concern, having been manager for several stations for the J. L. Carroll company in years past.

As soon as Mr. Weatherly took charge of the gas and oil last week the sales began to go up to near 1,000 gallons a day, and orders were placed for three new pumps to take care of the increasing numbers of new customers.

Mr. Weatherly, it will be remembered, was manager of the White Caps, a famous ball team around Atlanta about 12 or 14 years ago, and is the father of Harvey Weatherly, Jr., the well-known semi-pro ball player of this city.

## Jack Williams Takes Care of Prest-O-Lite

Jack Williams, who for the past 12 years has been in charge of Prest-O-Lite battery service, recently installed a battery service here and ever since has been a very busy man, and now tells his many friends that they can find him there 12 hours a day and all those that have battery trouble on Sunday will find someone in his department ready to serve them.

## Jamieson Looks After Tires

B. J. Jamieson is ever-ready to sell you the best grade of tubes and tires and should you get in trouble just give him a call at IVy 3261 or 3262 and he will get you a service truck there in very short order, as he has been in this business more than a decade and has made many friends who call him when they are in trouble.

## O. D. Adams Does the Vulcanizing

When it comes to vulcanizing O. D. Adams looks after the biggest plant of its kind in this vicinity and it is just another department of the J. L. Carroll company. We see here the biggest vulcanizing machines and presses probably in the entire south and a lot of expert workmen at work, and express trucks bringing large truck tires and rims from all parts of the state.

Mr. Adams stated here that you would be surprised how much work they get from out of town.

Owners of trucks everywhere are beginning to realize that a damaged solid tire is not necessarily worthless article and that it can be made as good as new for very small cost.

Mr. Adams further stated that a tire coming or tube received one day can be ready for the owner or shipped back the next day and that everybody wishing to save money on tire and tube bills will find it very much to their advantage to bring their old tires to them no matter what their condition.

## PURA CLUB SODA

## WINNING ITS WAY ON ITS OWN MERIT

Very little is known about an Atlanta product that is enjoying a large sale among people who appreciate the good things of life. This product, Pura Club soda, has won its way on merit alone and is now being bottled in great quantities by the Pura Water company, of 21 Piedmont avenue.

This water is used for a variety of purposes with pleasing effects. Many use it before and after meals as an appetizer and an aid to digestion with pleasing results. It is highly carbonated (the gas pressure being higher than ginger ale and other similar drinks), sparkling and clear. But probably the main use to which it is put is adding life and sparkle to otherwise flat and insipid beverages. In the social circles of Atlanta Pura Club soda is an old reliable "stand-by," being one of the requisites of the club and dining table, especially when punch and other similar drinks are served.

Pura Club soda is put up in six-ounce bottles, packed 24 to a case, and delivered either through the Kamper Grocery company, Northside distributors, or by the company.

The Pura Water company, as is generally known, is an exclusive water producer and the only company in the city giving all its attention to the production of pure water. The Pura Water company is a distilled, aerated water and Waukesha Lithia water, sold throughout the city for drinking purposes, in the home and office and at soda fountains. The entire line is guaranteed to be produced scientifically and perfectly pure.

## THE PROBLEM:

What Is the Sum Total of the Figures Forming the Elephant? Include the figures in the groundwork under the Elephant. Simply Add Them Up to Get the Solution.

There are no marks, lines or characters in the elephant except figures. These figures range from 2 to 9, each standing alone. There are no "ones" or "zeros." There are no groups of figures such as "23" or "42." The heads of the "2's" are distinctly curved, while the tails of the "9's" are straight, or practically so. There is no trick or illusion of any description in the chart.

## General Rules of The Contest

1. All bona fide residents of Georgia and adjoining states, meaning Alabama, Florida, North and South Carolina and Tennessee, may take part in this contest; except employees of The Atlanta Constitution and members of their families.

2. Contestants may submit as many different solutions as they desire, provided payment of one of the three amounts designated in the prize list shall accompany each solution. NO SOLUTION NOT ACCOMPANIED BY A SUBSCRIPTION PAYMENT WILL BE REGISTERED.

3. Only one prize will be paid to any person, household, or group of persons working together. When, in the judgment of the contest manager, two or more solutions have been copied or worked in collusion, such solutions may be rejected by him and the subscription money refunded.

4. The Atlanta Constitution is to decide any questions which may arise that are not covered by the published rules, and those entering this contest agree to abide by such decisions and accept them as final and conclusive.

5. All solutions must be mailed or delivered to The Atlanta Constitution office on or before 9 o'clock Saturday, November 8th, 1924. Solutions sent by mail bearing postmark of that date will be accepted if rules governing same are complied with. This contest extends from Sunday, September 28th, to and including Saturday, November 8th, 1924.

6. In case of ties, as many prizes will be reserved as there are people tied before any prizes are awarded for less correct solutions, and another puzzle will be submitted to those tied. That is, if two or more people should tie on the best solution, the first two or more prizes will be reserved for them, and they will be awarded in the order of the standing of their solutions of the second puzzle. If tie still result, as many as four tie-breaking puzzles will be used, after which should ties still result each contestant will receive the full value of the prize tied for.

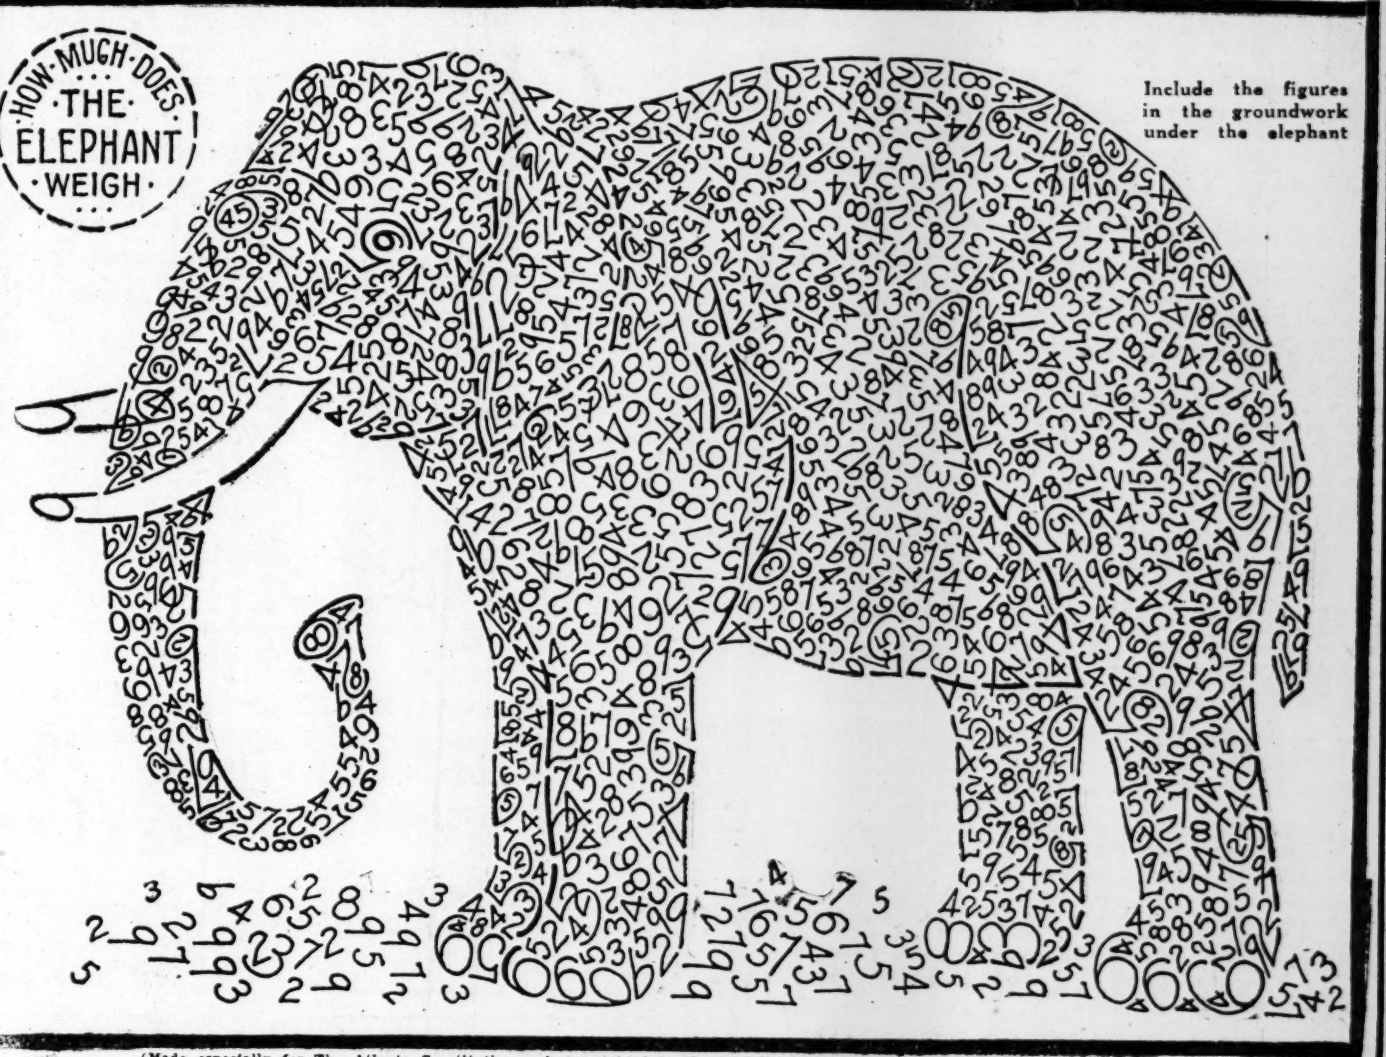

7. This contest is open to both new and old subscribers alike. The regular subscription rates of \$2.50 for three months, \$5.00 for six months, \$9.50 for twelve months to the daily and Sunday Constitution will prevail. Daily only subscriptions not accepted in this contest. Full amount of subscription must be remitted in every instance. When sent through an agent no commission can be deducted.

8. A person who is now taking the daily and Sunday Constitution, and paying a carrier or agent by the week or month, may send or bring direct to The Constitution a three, six or twelve months' payment with the solution. Whatever is due such carrier, dealer or agent, must be paid to him, as the remittance sent us will date from the day it is received. The carrier or agent will be notified by The Constitution of such advance payment. Renewals on mail subscriptions will be extended for the length of time paid for from present paid date of expiration.

Add 'Em Up

Here Is The Constitution's Elephant Picture Puzzle

Add 'Em Up

(Made especially for The Atlanta Constitution and copyrighted by J. A. Colburn, 1924.)

## THE PRIZE LIST

Note.—The value of the first nine prizes depends on how much you pay on your subscription with your solution of the puzzle. The amount paid will be applied to Daily and Sunday. Daily only subscription payments will not be accepted in this contest. Tri-Weekly subscriptions not accepted.

PRIZES	Price If One Year Sub. at \$9.50 Is Sent.	Price If One 6 Mos. Sub. at \$5.00 Is Sent.	Price If One 3 Mos. Sub. at \$2.50 Is Sent.
1st Prize	\$1,000.00	\$500.00	\$250.00
2nd Prize	700.00	250.00	125.00
3rd Prize	400.00	125.00	65.00
4th Prize	200.00	65.00	35.00
5th Prize	75.00	35.00	20.00
6th Prize	50.00	25.00	10.00
7th Prize	25.00	12.00	10.00
8th Prize	20.00	10.00	10.00
9th Prize	15.00	10.00	10.00
10th to 15th Prizes	10.00	10.00	8.00
16th to 25th Prizes	5.00	5.00	5.00
26th to 30th Prizes	3.00	3.00	3.00

I find the weight of the Elephant to be... pounds

\$9.50 for 12 months subscription qualifies for the \$1,000 Prize  
\$5.00 for 6 months subscription qualifies for the \$500 Prize  
\$2.50 for 3 months subscription qualifies for the \$250 Prize

## CLOSING DATE

The Great Elephant Puzzle Contest Will Close at 9 P. M., Saturday, November 8th, 1924.

The earlier you send in your solution the longer time you will have to go over your figures, AND SEND IN ANOTHER SOLUTION, if you find you can do better. Additional charts may be secured at any time by calling at the address below or sending a self-addressed, stamped envelope for mailing them. NO SOLUTION CAN BE CHANGED AFTER IT HAS BEEN ONCE REGISTERED.

## Important Facts To Remember

While the amount you pay with a solution of the puzzle does not have any effect on your winning a prize, it does affect the amount you will receive, should you win one of the first nine prizes, as the value of these prizes is determined by what the winners pay. This is explained in the prize list, which you should study carefully before sending in your solution.

The time a solution is received has no bearing upon its winning a prize. Accuracy is what counts.

Not more than one prize will be awarded to any one person.

## Extra Puzzles FREE!—Address

## CONTEST MANAGER

The Atlanta Constitution, Atlanta, Ga.

Inclosing a self-addressed, stamped envelope for mailing them.

## Deciding Ties—If Any

Actual Size, 11x7 inches.

In case of ties, those tied for any prize will be presented with a second puzzle, which will consist of drawing a line across the face of a chart of figures, like the accompanying chart, only larger, so that the figures thus connected when added together will total the greatest sum. If necessary, this chart will be used four times after which, should any tie remain, each contestant will receive full value of any prize tied for.

In case there are no ties on counting the Elephant, no other puzzle, of course, will be presented.

## The Exact Weight

of the

## ELEPHANT

is not known to anyone. The drawer and maker of the cut knew the weight, as he drew it, and no one else. When the cut was received by The Atlanta Constitution several figures were clipped out. No Constitution employee knows the drawer's solution, and the drawer does not know what numbers were cut out by The Constitution, and will not know until after the closing date, November 8. No one knows any more about what the correct weight is than the contestants themselves.

## EXTRA!

Name the Elephant and Win an Extra Prize

The Constitution wants two good and appropriate names for its pachyderm. It therefore offers two extra prizes for these names, which may be submitted whether the submitting them send a solution of the weight of the elephant or not. NO SUBSCRIPTION HAS TO BE PAID BY THOSE SUBMITTING NAMES. This offer open and free to everybody.

FIRST PRIZE, for the best name... \$50

SECOND PRIZE, for the next best name... \$25

Each name may consist of from one to three words, but no one may submit more than one name, or use more than three words in any name he or she submits. No name may be submitted later than October 30. The best names will be determined by judges whom The Constitution will select to decide the question.

In case two people submit the same name, and it is selected as one that wins a prize, each of those submitting that name will receive the full value of that respective prize. Now, here's a chance to exercise your wit in selecting an appropriate name for The Constitution's Elephant. Just write it down plainly with your name and address included and send it in for consideration.

## Elephant Name Coupon

TO THE ATLANTA CONSTITUTION:

I submit as an appropriate name for your Elephant the following:

Name.....

Address.....

NOTE: While the contest for solving the elephant's weight does not close until November 8, the last date on which you may submit a name is October 30.

Names may be submitted on a slip of paper or on this coupon.

# FOUR S. I. C. GRIDIRON TEAMS PLAY FOR EXERCISE

## Major Eastern Teams Seek To Retrieve Prestige Army and Notre Dame Clash at Polo Grounds; Penn State Meets Tech

New York, October 12.—Major eastern football eleven, tainted by the blight of surprise in Saturday's games, will seek to retrieve prestige this week when some of the classics of the season will be presented.

Heading the list is the annual inter-sectional premier between Army and Notre Dame, which will be played this year at the Polo Grounds, Yale and Dartmouth meet at New Haven, Princeton and Yale clash at Princeton, Penn State goes to Atlanta for an inter-sectional contest with Georgia Tech and Colgate journeys to Nebraska to meet the Cornhuskers.

Cornell, whose string of 26 victories was broken yesterday by a well-coached and more alert Williams team by a score of 14 to 7, will go on without the heavy strain of consecutive wins, meeting Rutgers, an undefeated team, at Ithaca.

Marquette, now in its third undefeated season, another Navy with speed in the final quarter and earned a 21-to-3 victory after the Midway had taken the lead with the 11-yard line, where the L-high end stepped out of bounds. Princeton rosters were happy to accept a nothing-noting score as the bulky Leigh line and hard-running backs constantly threatened the Princeton goal during the last half.

**Georgia Scared Yale.**  
Georgia gave Yale a scare by scoring a touchdown in the first quarter after a 60-yard advance down the field. The southerners failed to kick goal, however, and the Elis won, 7 to 6, by converting their goal after a touchdown in the third period into a point. Both elevens tried hard to rally thereafter, but failed. Georgia reached the Blue 15-yard line in the third session and Yale was on the southerners' 3-yard mark at the final whistle.

Fumbling at critical times by the Mountaineers enabled Pittsburgh to administer a 14-to-7 defeat to West Virginia in the other big upset on eastern gridiron.

Army tuned up for Notre Dame by trimming Detroit 20 to 0, and Dartmouth edged for Yale with a 38-0 victory over Vermont. Syracuse defeated William and Mary 24 to 7, and Columbia stopped Wesleyan, 35 to 0. Penn State won from Gettysburg, 25 to 0. Penn State's championship is a joint to Lincoln with a 41-to-0 victory over Clarkson.

Wisconsin tied, 7-7, with Coe and furnished another surprise in face of its powerful showing in two earlier games. Wisconsin played its second team much of the first half and it was then the score of which gave a margin for speculation about Coach Ryan's plans for this week's game with Minnesota.

**Minnesota Reestablished.**  
Minnesota, reported a little unhappy about her opening game, beat the always dangerous Haskell Indians, 29 to 0, and reestablished her high rating.

Northwestern, still running wild through preparatory games, by defeating Cincinnati, 42 to 0, continued development of one of its strongest elevens.

Indiana, though defeated by Louisiana, 29 to 14, kept its running Mike Donahue went to Louisiana for his first season as coach last spring and put all 400 of the Louisiana R. O. T. C. corps at football practice.

With this material and a practice season starting about two weeks ahead of Indiana, he developed a strong team. Indiana showed a valuable asset for any team in Slote, who has scored ten goals, after touchdowns, leading the Big Ten in that department.

Purdue, running through Rose Poly, 41 to 3, continued the strength it showed when it held Ohio the previous week to one touchdown.

When a Feller Needs a Friend

By Briggs

### BIG TEN TAKES FIELD WITH DRIVE

Chicago, October 12.—(By the Associated Press.)—A real big ten, comprising ten elevens showing football power, instead of half a dozen teams of overwhelming superiority, stood out after yesterday's games had finished one quarter of the football season.

There were several surprises which served to change big ten prospects sufficiently to make good early season predictions that several teams might strike stiff opposition before the closing game for the championship.

Iowa and Ohio, in the only big ten game, a nothing to nothing tie, left both teams as contenders. In this game, as throughout the conference, summer heat stood a strong factor in the evening-up process. Iowa with a study line averaging more than 200 pounds and with two complete flashy backfields showed a great power. Captain Parkin, of Iowa, alone made 60 yards before heat took him down.

Brookings, world's champion hurdler, answered a big question of the season whether he could star in football. Entering the game in the last three minutes, he made 31 yards in five successive plays, more than six yards a play.

Illinois, after its small margin over Nebraska the previous week and facing Butler, an antagonist rated dangerous, made a demonstration of real strength, winning 10 to 0, and showing the position. They spent the afternoon yelling at Murphy, advising him to get a mattress. William Tucker, a contractor in the plant, gave the Penn State team a mattress for the night.

The average career of a good major league ball player is several years more than five.

## Southern Teams Make Good Showing Saturday; L. S. U. Brings Victory

Four southern conference teams played for exercise yesterday so far as results in the football season are concerned. Florida and Tech battled through a hectic 7-to-7 draw in Atlanta, while V. P. I. and Auburn played a scoreless tie at Richmond in a game described as a bit listless in spots.

The clash of Yellow Jacket and Alligator was far from indolent. There was action to spare, the most significant being an inability to coordinate retentive forces in regard to the ball. The young men engaged in this game played before a crowd in excess of 10,000, had not heard or did not appreciate the warning of the well-known coach who told his players that it were better for them to be cut down in their youth than to grow to manhood and fumble.

Wake Forest spilled the beans for the general of Washington and Lee with a sickening thud for the Lexington citizenry. The demon Deacons seem to be in a fair way to make themselves a factor in the game. The University of Georgia, although defeated by a single point by Yale, at New Haven, had the Blue in the trying position of trailing for a time and emerged from the contest "gloriously in defeat."

**L. S. U. Brings Honors.**  
Louisiana State came to the Dixie in a pinch for the honor of Dixie and brought the first victory of the season to the south in an inter-sectional contest, Mike Donahue's team defeating the University of Indiana, 20 to 14.

Vanderbilt, rated generally as one of the south's strongest teams, ran into a block of trouble with the hard-charging Marines from Quantico, and may have been lucky to escape with a tie at 13 all.

Seawater came back strong in its invasion of Texas and held the Aggies of Texas to a single touchdown when dire forebodings of a slaughter of the innocents were being mailed to the North Carolina defeated Trinity, 6 to 0, but the difference between the Tar Heels and Blue Devils of Trinity was two field goals, the Fetters' 10 to 0.

Howard displayed an edge over Illinois in defeating the Tennessee team, 28 to 0.

Hampton-Sidney with a year in which to think of a defeat by Lynchburg, came back victorious and evened the count by winning, 18 to 3.

Maryland stopped Richmond by a 13-to-0 count, and Arkansas won from Hendrix, 24 to 8.

Emory and Henry had a fight on its hands with Tusculum but won, 14 to 9, while the Tennessee Meds. took their game from Cumberland, 19 to 0.

Williams and Mary scored on Syracuse and was responsible for an afternoon of handiaps holding away in the morning with the Great Indian handiaps shoot in the afternoon.

There will be more than \$500 in cash prizes with many trophies and added money for the highest shooting honors of the three-day shooting events.

## VICTOR RESTS WITH RIVAL SUNDAY

Lafayette, Ky., October 12.—(By the Associated Press.)—Sarazen, the victor, and Eppard, the vanquished, rested serenely today in the surroundings of their memorable battle in the inter-sectional mile and a half race here yesterday, in which all existing Kentucky records for the distance were smashed before the greatest crowd that ever went through the turnstiles at Lafayette.

Eppard, great in defeat, ran second to the three-year-old gelding of Mrs. W. K. Sarazen, who won for his owner \$55,500, a beautiful gold cup and the acclaim of the throng.

Eppard probably will be shipped to Maryland this week for a race there next Saturday, although nothing definite could be learned today. A match race between Sarazen and Eppard during the coming Churchill Downs meeting has been suggested, but whether Mrs. Vanderbilt will consent to risk the reputation of her horse was not known.

**Sarazen Shipped to Laurel.**  
Sarazen was shipped to Laurel race track late today. In the same car was My Play.

Eppard remained here and probably will follow Sarazen to the east next Wednesday. Whether he will run again in Maryland next Saturday will be determined tomorrow or Tuesday when his trainer has a conference with Pierre Wertheimer, owner of the horse.

Although not generally known, Eppard had a slightly bruised knee when he ran in yesterday's race.

**ST. PAUL WINS TWO IN ROW**  
St. Paul, October 12.—Excellent pitching by Fittery and Markle, combined with opportunistic hits by their teammates, gave St. Paul its second straight victory over Baltimore here today, squaring the game count in the junior world's series at four-all. The score was 3 to 1.

**O'ROURKE MEETS BENNIE REGAN**  
Tim O'Rourke and Bennie Regan, both of Atlanta, are scheduled to mix their skill as fighters with two Chattanooga lads in the Tennessee tournament in the main bout and semi-finals of a fight show to be staged here tonight. In the main event O'Rourke and Frankie Beal will do their stuff. Both men are to weigh 135 pounds. Beal is a native of the state, but there is no doubt as to a good showing by the Atlanta boy.

Muggsey Miller, who also hangs his hat in Chattanooga, will be Regan's opponent in the semi-finals. The bout is booked to last eight rounds with both lads weighing 112 pounds. Both Regan and O'Rourke are under the care of R. E. (Stormy) Mott.

**MEMORIAL SERVICES HELD FOR VETERANS**  
With Dr. Carter Helm Jones officiating, assisted by Dr. T. B. Cleveland, camp chaplain, the 35th annual memorial services of Atlanta Camp No. 159, United Confederate Veterans, was held Sunday night at Second Baptist church, giving the annual service was read. A special musical program was given by the church choir.

**Ring Recovered After Eight Years**  
Mrs. R. W. Burton, of Kansas City, said a valued ring, missing since 1916, was found by her maid. The ring was found in a pawn shop. The owner of the pawn shop, who had bought it at a pawn shop, had found it in a pawn shop. The owner of the pawn shop, who had bought it at a pawn shop, had found it in a pawn shop.

## FORT BEATEN BY WEST END

BY M. D. GLEASON.  
The boys of West End have been playing the football team of Fort McPherson for four years and never won a game until yesterday, when they did win they made up for all those years by winning from the soldiers by the score of 52 to 9 at the fort.

The soldiers outweighed the West End boys at least 20 rounds, but the boys just outplayed them in every department and only once in the game did the soldiers even come near scoring.

The lads from West End went after the game from the minute the referee blew his whistle. The old Tech High boy, scored the first touchdown by a 60-yard run around right end.

"Froggy" Gordy, the old Oglethorpe player, got the ball on West End's 40-yard line and by some pretty fine running made the third touchdown.

One of the soldiers made a fumble in mid-field and "Hal" Smith picked up the ball and ran 50 yards like a frightened deer over the goal line for another touchdown.

"Ort" Jenkins, who has been starting the games for the past four years, got the ball and made a 40-yard dash around the right end for fifth touchdown, and J. D. Waddell began to get his educated toe working and kicked the goal, making it 35 to 9 until this time.

Waddell came back again a few minutes later with a 30-yard run around left end for the sixth touchdown and then kicked the goal, making it 42 to 9.

Chestnut, remembered at this period that it was discovery day and when nobody was looking, grabbed the ball and ran around left end for seventh touchdown, and registered another touchdown. Jenkins then stated "Let's all celebrate the day," and kicked goal.

Gordy again became the central figure in the drama when he took the pigskin and passed the right tackle, making 45 yards on the run. Just to keep up the good work Gordy bucked the ball over after Otis Cole brought it to within a boarding house table length of the goal line, and Jenkins passed the ball over for the last score of the day, making a grand total of 52 for the day's play.

For Fort McPherson Lieutenant Boettcher was the best ground gainer and he was well supported by Soldier Champion, but these two men could not make up for the many fumbles and misplays which the soldiers made and their good work was the bright spot in the soldiers' game.

## The Umpire

BY H. G. SALSINGER.  
IN REGARD to recent references to Fred Merkle in advance stories on the world's series, N. C. writes: "I see writers are still talking about Merkle's 'bone-headed play' made 16 years ago. I believe that Merkle could come back today to the major leagues and show at least half the first basemen a lot about playing the position. I also believe that 90 per cent of the men playing in the majors would have quit cold had they made the same mistake, or one as costly as Merkle's."

And there is a great deal in that. The soldiers outweighed the West End boys at least 20 rounds, but the boys just outplayed them in every department and only once in the game did the soldiers even come near scoring.

Connie Mack must have a certain sense of pride in the achievements of the Washington team this year. Connie Mack used to be a member of the Washington team. A. J. Strong tells about it: "I saw Connie catch his last game for Hartford. His pitcher was William Gilmore and they constituted the famous 'Pipstems' battery, the best in the Eastern league."

"John Henry, pitcher, and Krie, his catcher, started the game, but collided in front of the plate in trying to catch a ball. The pitcher, Gilmore, and he had to retire, Gilmore and Connie Mack finishing the game. Immediately after the game ended they joined the Washington club. Gilmore was a very deliberate pitcher and Connie Mack's sonorous voice constantly calling, 'Come on, Gil,' could be distinctly heard all over the grandstand."

As a member of the Washington team Mack became the favorite pitcher of the fans. He was a native of Philadelphia and was attached to Connie that he would not allow another catcher to work with him.

INFORMATION on the invention of the catcher's protector is furnished by William Gray, a polisher working for the firm that I was identified with an apprentice, invented the protector and patented it. The first model was worn by Tony Murphy at the Ward street grounds in Hartford. The bleacher gods did not take kindly to the innovation. They spent the afternoon yelling at Murphy, advising him to get a mattress. William Tucker, a contractor in the plant, gave the Penn State team a mattress for the night.

IN SOCCER, like baseball, few men are active players when they reach the age of 35. There are more than 2,000 first-class soccer players in England and Scotland, and not one of them is past 35.

In the list of English and Scottish internationalists there are 634 names, and 100 of them have played between the years of 1874 and 1922. In this list is but one player who lasted as long as 12 years. He is R. Crombie, of the Glasgow Rangers.

R. Walker, of the Hearts of Scotland, and S. Bloomer, of the Derby, England, are next to him. Each played 11 years. Four men played 10 years, three played 9, three 8 and eleven had seven seasons of active play. Ten lasted five years, 500 internationalists had 5 years or less in international competition. Only 33 players saw more than five years' service.

The average career of a good major league ball player is several years more than five.

## NITTANY LIONS TURN FACES SOUTHWARD

State College, Pa., October 12.—(Special to the Associated Press.)—The major program of grid combats next Saturday against Georgia Tech, at Atlanta, Penn State gridirers will be through an intensive workout on Monday, Tuesday and Wednesday of this week to make up for the time that must be lost during the 1,000-mile trip to Georgia.

The Penn State team will head south on Thursday morning, so that three days of practice will be all that will be available in preparation for the meeting with the Georgia Tech team on Saturday.

It is hoped that arrival at Atlanta will be early enough on Friday afternoon to permit a limbering-up drill on Grant field.

This is the first time that a Penn State football team has ever gone so far south, although the Nittany Lions have a reputation for traveling over the rest of the United States. The trip will be made in a special Pullman Pullman, D. C. and will mean about \$10,000 in riding.

**NEBRASKA'S LOSS IS FIRST SINCE WAR**  
Kansas City, Mo., October 12.—(By the Associated Press.)—Defeat of Nebraska by Oklahoma, the first time the Corn Huskers had lost a game to a conference team since the world war, was the outstanding feature of the opening of the Missouri Valley conference football season yesterday. The Nebraska team entered the game strong favorites but were outplayed in every department except punting, and the Sooners won by a 14-to-7 score.

All of the nine conference elevens went into action yesterday, three of them, however, playing non-conference elevens.

Another upset was noted in the defeat of Kansas by Ames, 13 to 10, at Lawrence. Last year Kansas was one of the strong contenders for the championship.

In the other contest Grinnell defeated Washington university of St. Louis at Grinnell, 14 to 0.

In each of the three non-conference games the conference team was victorious. Missouri defeated Missouri Wesleyan, 14 to 0; the Kansas Aggies defeated Emporia Normal, 19 to 7, and Drake won from Knox, 19 to 10.

Miss Mary O. Troutman, 60, formerly of Atlanta, died Sunday night at Athens, Ga., after an illness of several months according to information received by relatives in Atlanta. Born at Fort Valley, Ga., Miss Troutman moved to Atlanta when a young woman and was for many years a teacher at the University School for Boys here. She later taught at Riverside military academy, at Gainesville, and was connected with that institution until illness last June when she moved to Athens.

Miss Troutman was widely known and a member of one of the south's best known families. She was active in the work of the Georgia women's educational fund, and was one of the oldest and most beloved of Georgia women educators. She is survived by three nephews, H. B. and R. B. Troutman, of Atlanta, and B. L. Troutman, of Albany, and one niece, Mrs. R. C. Wilson, of Athens.

Funeral services will be conducted in Athens today and interment will be in the Boone Co. cemetery where the body will be taken Tuesday morning.

The man who wouldn't spend an evening at home for a farm was ready to admit that there's no place like home when the alarm clock rings in the morning. — Hamilton (Ont.) Herald.

## Atlanta Gun Club Makes Preparations for Shoot

Preparations are being made by the Atlanta Gun Club for one of the largest trapshooting events of the year, when the first annual now-comes of the Southern Indians will be held at the local club during the three days beginning Monday, October 20, and lasting through Wednesday, October 22.

The shoot is an invitation affair. Invitations have been mailed to all members of the Southern Association of Trapshooters and many others not living in this vicinity.

There will be \$5,000 in cash prizes with more than \$1,000 worth of trophies along with added money put up for the shooters to win. There will be 100 single targets from the 16-yard line and 50 handicap with 25 pair of doubles. There will be more cash prizes awarded as added money in each of the events making the cash amounting to more than \$3,000, one of the largest lists of prizes and trophies ever awarded at a trapshooting event in the south.

**Association Rules.**  
The American Trapshooters' association rules will govern the shoot at all times. Shooting for targets only will be allowed.

The complete organization of the tribes of Indians will be the order of business for the first day and officers for the year will be elected at the first meeting. Any trapshooter in the southern zone and neighboring zones is eligible to become a member of the Indians and is eligible to shoot in this, the first of a number of shoots that are being planned.

The first day's program will be registered, and there will be 200 targets from the 16-yard line and will start at 10 o'clock. The entrance fee will be \$15.00, with cash prizes amounting to \$400, to be divided among the first four men making the highest score. There will also be several trophies to be awarded.

In the afternoon 15 pair of doubles will be shot at with more than \$30 as cash prizes and other trophies to the winner.

The first day's honor will be the Indian class championship, while the second will be for the Five Tribes race championship, and Wednesday morning the preliminary handiaps will be held for the Great Indian handiaps shoot that takes place in the afternoon.

The second day's events will be the same as the first, with teams shooting instead of individual honors.

The final day's events will be held in the afternoon.

Score by innings: R. H. E. Giants 110 008—1 12 2 White Sox 000 000 050—5 9 4 Batteries: Scott and Henline; Lyons and Bennett.

**GIANTS ROMP ON WHITE SOX**  
Montreal, October 12.—The New York Giants defeated the Chicago White Sox 13 to 5 today in the first exhibition of their winter tour which, before it is concluded, will take them through the principal countries of Europe. They will play here again tomorrow.

Score by innings: R. H. E. Giants 110 008—1 12 2 White Sox 000 000 050—5 9 4 Batteries: Scott and Henline; Lyons and Bennett.

## BEAUTY CHATS

BY EDNA K. FORBES.

### WELL-KEPT FEET

The fact is, we don't like that kind of stuff, either for its own sake or for the star-chamber discussions afterwards which are the enjoyment most of us want—and most men get out of their feet for the discussions by innumerable in mixed company.

There are books which more than skirt the salacious, but have something to say about the feet. As to the "Plastic Age," the lessons it attempts to teach are distinctly negative. (Back to our old habit again.)

Holding up horrors to people may deter them from evil, but there is a way which we believe is much more frequently effective and certainly, in self-possession, pleasing, with some mountainair for enough gas to carry them down Mount Mitchell.

They are modern enough—these ladies of the road—to undertake the seventeen-mile climb up the Blue Ridge alone, but revert to type when they forget to provide their gas supply before starting. Presumably, this is the hang-over from the habit of ages of women who have had men do such things for them which causes them to neglect such unimportant details as fuel to make the wheels go round.

Or, arrived at a mountain hotel, they park the car and mount a horse—one apiece, in fact.

The automobile is giving people the kind of opportunity to see their country which they would never have had otherwise. But even the automobile cannot take them into the heart of the mountains. Then the hills and valleys, the trees and the streams are no longer just scenery. And the riders learn why lovers of the home soil, whether that soil be red clay or sandy, call it God's country.

Sometimes these young women traveling in snappy sport cars are seeking a little quiet after a hectic summer of many house parties or travel in Europe, and they would lay up stores of reserve for the whirl of a busy social life in some large city.

Or perhaps in their trusty Henry they seek the change every "tired business woman" needs. They may be like a famous actress who slips away to the blue hills for a little "atmosphere" before rehearsals are to begin, and the riders learn why, like as not, ride a woman playfully as famous and successful on Broadway as her actress companion.

Whatever their interests at home, they will have fresh life and inspiration for them from their brief contacts with the autumn mountains.

Chapters? Nobody uses them now, so far as we have heard, but baseball teams.

**PICKING UP US.**  
THIS time in the morning, I published a letter once which accused you of criticizing a book which your correspondent believed you had not read. Now I believe I've caught you at the same trick. You called "The Plastic Age" a bromide. You choose your words well, so I'm compelled to think you haven't read it. This book is anything but bromide. How about it?

First, thanks for the kind words about our choice of words. Second, bromide was the word I used. Third, we haven't read the book. Fourth, we don't intend to.

We don't intend to read it because we have it on good authority that much of it is nasty, and we make it a practice to abstain from nasty books. We can't take any particular virtue to ourselves on this account, although we do consider it a virtue to abstain, if abstaining means a sacrifice, because the appetite for the salacious grows with what it feeds on.

**When Keeping Up Means Falling Behind**  
BY JULIA HOYT

(Copyright 1924 in U. S. and Canada by North American Newspaper Alliance. All rights reserved.)

A certain young woman I know, of very moderate means, is one of those who are popularly called rare specimens of happy wife. What is more, her husband is a happy and contented man. She is not particularly good-looking, nor is she witty and brilliant, and though very pleasant and kind, I must confess to having sometimes wondered what was the reason for his quite evident complete satisfaction in her as a wife. The other day I discovered what I felt sure in the reason, and, on thinking it over, I believe it is worth writing about.

The happiness of these two young people is undoubtedly caused by their attitude toward money. They both have voluntarily agreed not only not to go into debt but to put a little aside. There is no question that debt is the greatest cause for ill temper, nerves and mental disturbances, either avowed or disavowed, that exists. In addition, it is like most bad habits,

much easier to acquire than to be rid of.

The tendency of many young married couples today is to live beyond their means. They think themselves miserable if their friends, Mr. and Mrs. John Smith, can possess or do something which is beyond their means. Consequently, in order to keep up the assumed standard of life, first, of owing money, and second, of having to continue to do so for once in their life they must continue to do so.

Sometimes the fault is with the man, who fears to refuse his bride anything she may want and cannot bear her to know he is unable to keep her in the van of life. This is short-sighted—false pride. When she discovers the truth it is much harder for her than had he had the courage to be honest from the first. If we could only realize that there is nothing to be ashamed of in having less money than the next person and that, in the long run, it doesn't count nearly as much as many other things. Needless to say, I am not discussing those who are actually in need.

The person who always finds a chance for envy. The young wife of moderate means grumbles because a friend of hers has a Ford and she is forced to ride in a bus. The same type of young wife, when she is rich grumbles because a friend of hers has a Rolls-Royce while she has something less—and this latter wife can make herself and her husband as miserable as the former.

In any case, granting that we all of us want something that is beyond our reach, the young couple who run into debt to acquire the desired article are laying up untold unhappiness. And they will never have it by setting on something new beyond their reach.

The young couple mentioned at the beginning of this article have worked out their budget in an intelligent manner and stick to it. If the wife wants some luxury that is beyond her means—for example, a course of study she took one year—she earns it by saving something for it. She paid for this course by wearing her suit a third or fourth year, instead of buying a new one. In the same way the husband economizes in some personal expense for a luxury.

There may be times when common sense seems difficult. The young couple that keep out of debt and put a little by have gone quite a way toward achieving a lasting happiness as against a momentary satisfaction.

**FORMER ATLANTA MAN SUCCUMBS AT SPARTA**

Sparta, Ga., October 12.—(Special.)—R. Clarence Thomas, 46, died at the home of his sister, Mrs. Myra Shivers, this morning. Mr. Thomas was a resident of Atlanta before coming here several years ago. Funeral services were held this afternoon at 4 o'clock, Reverend J. A. Partridge, pastor of the Methodist church, conducting. Interment was at the city cemetery.

He is survived by his widow, of Atlanta; two sisters, Mrs. Myra Shivers and Mrs. T. M. Jones, of Sparta; and a brother, Wynnton Thomas, of Atlanta.

**PICKING UP US.**  
THIS time in the morning, I published a letter once which accused you of criticizing a book which your correspondent believed you had not read. Now I believe I've caught you at the same trick. You called "The Plastic Age" a bromide. You choose your words well, so I'm compelled to think you haven't read it. This book is anything but bromide. How about it?

First, thanks for the kind words about our choice of words. Second, bromide was the word I used. Third, we haven't read the book. Fourth, we don't intend to.

We don't intend to read it because we have it on good authority that much of it is nasty, and we make it a practice to abstain from nasty books. We can't take any particular virtue to ourselves on this account, although we do consider it a virtue to abstain, if abstaining means a sacrifice, because the appetite for the salacious grows with what it feeds on.

A certain young woman I know, of very moderate means, is one of those who are popularly called rare specimens of happy wife. What is more, her husband is a happy and contented man. She is not particularly good-looking, nor is she witty and brilliant, and though very pleasant and kind, I must confess to having sometimes wondered what was the reason for his quite evident complete satisfaction in her as a wife. The other day I discovered what I felt sure in the reason, and, on thinking it over, I believe it is worth writing about.

The happiness of these two young people is undoubtedly caused by their attitude toward money. They both have voluntarily agreed not only not to go into debt but to put a little aside. There is no question that debt is the greatest cause for ill temper, nerves and mental disturbances, either avowed or disavowed, that exists. In addition, it is like most bad habits,

much easier to acquire than to be rid of.

The tendency of many young married couples today is to live beyond their means. They think themselves miserable if their friends, Mr. and Mrs. John Smith, can possess or do something which is beyond their means. Consequently, in order to keep up the assumed standard of life, first, of owing money, and second, of having to continue to do so for once in their life they must continue to do so.

Sometimes the fault is with the man, who fears to refuse his bride anything she may want and cannot bear her to know he is unable to keep her in the van of life. This is short-sighted—false pride. When she discovers the truth it is much harder for her than had he had the courage to be honest from the first. If we could only realize that there is nothing to be ashamed of in having less money than the next person and that, in the long run, it doesn't count nearly as much as many other things. Needless to say, I am not discussing those who are actually in need.

The person who always finds a chance for envy. The young wife of moderate means grumbles because a friend of hers has a Ford and she is forced to ride in a bus. The same type of young wife, when she is rich grumbles because a friend of hers has a Rolls-Royce while she has something less—and this latter wife can make herself and her husband as miserable as the former.

In any case, granting that we all of us want something that is beyond our reach, the young couple who run into debt to acquire the desired article are laying up untold unhappiness. And they will never have it by setting on something new beyond their reach.

The young couple mentioned at the beginning of this article have worked out their budget in an intelligent manner and stick to it. If the wife wants some luxury that is beyond her means—for example, a course of study she took one year—she earns it by saving something for it. She paid for this course by wearing her suit a third or fourth year, instead of buying a new one. In the same way the husband economizes in some personal expense for a luxury.

There may be times when common sense seems difficult. The young couple that keep out of debt and put a little by have gone quite a way toward achieving a lasting happiness as against a momentary satisfaction.

**FORMER ATLANTA MAN SUCCUMBS AT SPARTA**

Sparta, Ga., October 12.—(Special.)—R. Clarence Thomas, 46, died at the home of his sister, Mrs. Myra Shivers, this morning. Mr. Thomas was a resident of Atlanta before coming here several years ago. Funeral services were held this afternoon at 4 o'clock, Reverend J. A. Partridge, pastor of the Methodist church, conducting. Interment was at the city cemetery.

He is survived by his widow, of Atlanta; two sisters, Mrs. Myra Shivers and Mrs. T. M. Jones, of Sparta; and a brother, Wynnton Thomas, of Atlanta.

BY EDNA K. FORBES.

**WELL-KEPT FEET**  
The fact is, we don't like that kind of stuff, either for its own sake or for the star-chamber discussions afterwards which are the enjoyment most of us want—and most men get out of their feet for the discussions by innumerable in mixed company.

There are books which more than skirt the salacious, but have something to say about the feet. As to the "Plastic Age," the lessons it attempts to teach are distinctly negative. (Back to our old habit again.)

Holding up horrors to people may deter them from evil, but there is a way which we believe is much more frequently effective and certainly, in self-possession, pleasing, with some mountainair for enough gas to carry them down Mount Mitchell.

They are modern enough—these ladies of the road—to undertake the seventeen-mile climb up the Blue Ridge alone, but revert to type when they forget to provide their gas supply before starting. Presumably, this is the hang-over from the habit of ages of women who have had men do such things for them which causes them to neglect such unimportant details as fuel to make the wheels go round.

Or, arrived at a mountain hotel, they park the car and mount a horse—one apiece, in fact.

The automobile is giving people the kind of opportunity to see their country which they would never have had otherwise. But even the automobile cannot take them into the heart of the mountains. Then the hills and valleys, the trees and the streams are no longer just scenery. And the riders learn why lovers of the home soil, whether that soil be red clay or sandy, call it God's country.

Sometimes these young women traveling in snappy sport cars are seeking a little quiet after a hectic summer of many house parties or travel in Europe, and they would lay up stores of reserve for the whirl of a busy social life in some large city.

Or perhaps in their trusty Henry they seek the change every "tired business woman" needs. They may be like a famous actress who slips away to the blue hills for a little "atmosphere" before rehearsals are to begin, and the riders learn why, like as not, ride a woman playfully as famous and successful on Broadway as her actress companion.

Whatever their interests at home, they will have fresh life and inspiration for them from their brief contacts with the autumn mountains.

Chapters? Nobody uses them now, so far as we have heard, but baseball teams.

## Red Riding Hood

By  
ELIZABETH JORDAN

**SYNOPSIS.**  
Mrs. Morgan Schuyler, one of New York's leading philanthropic and social lights, advertised for a young woman to work in her apartment mornings. The advertisement is answered by a girl evidently of birth and breeding. In spite of the fact that she admits a desire to hide her identity, Mrs. Schuyler accepts her on trust and tags her with the name of Hope Emerson.

Mrs. Schuyler's family consists of her mother, Mrs. Van Dora; a young brother, Jim Van Dora, and an older brother, Bertie, who is away.

The second morning of her employment Hope faints after receiving a mysterious telephone call. Mrs. Schuyler summons Dr. Horace Osborne. Hope tells the doctor she is employed during the afternoon hours on East Seventieth street. She offers to drive her there. By a strange coincidence the doctor has an appointment at the house where Hope is employed. He has been called in consultation with two other doctors. The patient is a boy of five years about whom the entire household mysteriously revolves. The closest guardian being an uncle named Scarwenka. All of the members of this household are foreigners except Hope, who knows here as Sonia. A day or two later a mysterious visitor, Colonel Van Saanen, a man of obvious importance, calls at the Seventieth street home.

INSTALLMENT XXV.  
VAN SAANEN LOSES HIS TEMPER.

Colonel Van Saanen fixed his narrow glance on Hope and spoke unsmilingly.

"I speak, do I not, to Mademoiselle Strelenski?" Hope smiled.

"That is what they call me here." The heavy eyelids lifted a trifle, and she had her first impression of the flash-of-interest, perhaps, or amusement, or suspicion, or of all three. "And you have been here six months?"

"Yes, Colonel Van Saanen."

Again he showed understanding.

"You will pardon me for going over what is no doubt old ground and monotonous to you," he said formally. "This is my first visit. I have had reports from my associates, but I now desire a detailed report made to me personally—if you will be kind enough to give it."

"Of course, I shall be glad to answer any questions I can."

"Thank you. Then we will go back a little. You had, I believe, strong personal recommendations when you came to us?"

"They were satisfactory to your associates, Colonel Van Saanen."

"So they told me." Nevertheless he appeared to be considering the question anew, for he studied her a moment in silence and asked his next question almost abruptly.

"Tell me, mademoiselle, what is your daily routine here?"

"A very simple one, and one that doesn't vary much. I come at two every afternoon, or a little after that, doing the household marketing on my way. I leave ordinarily about seven. Sometimes, of course, I go much later, and sometimes a little earlier. It was after eleven before I left last night," she smiled again. "I had decided that a growing sense of responsibility I felt I must mean that another report would be needed. So I worked late and got it ready."

He did not return the smile. On the contrary, his arrogant face hardened and his narrow black gaze grew more watchful.

"You expected some one, then, today?"

"Not necessarily today, but soon. The intervals between visits are usually about the same, you know."

The door, which had been left ajar, suddenly swung open and both, hearing the creak of its unopened hinges—oil hinges being a detail Scarwenka ignored—glanced in its direction. A young puppy stood on the threshold, supporting himself on uncertain legs and looking eagerly about him. Failing to find the object of his search, he advanced into the room and coming toward the visitor, proceeded to inspect closely that gentle-

"Of course I shall be glad to answer any questions."

man's patent leather shoes. Van Saanen drew his foot away with a movement of irritation and ignoring the friendly little beast returned to his conversation with the girl. She realized with surprise that he was disturbed.

"Do you dine here?" he asked at last, and she had an odd sense that he was sparing for time. Surely it was not to get such information as this that he had come.

"Not unless I remain after seven," she told him. "Then Madam Scarwenka is good enough to send a tray to my desk."

"How often does that happen?"

"Perhaps once a month. Usually when I am going over my daily reports to make out the monthly statement."

He straightened with the gesture of one pulling himself together, and his tone became more businesslike.

"How do you arrange about the marketing, and the shopping, and other emergency work?"

"There isn't any real shopping to do. No one here seems to want anything—I suppose because all their needs were supplied in advance when they came," she politely interpolated. "The little that is required I buy, pay for, and bring with me. Nothing whatever is delivered. The house was put into such excellent condition that there has been no need of carpenters or plumbers for emergency work; and there is enough wood and coal in the cellar to last till May. So there remains merely the matter of food supply. I buy that three times a week. I pick up a cab at random, get what is needed according to a list I've made the day before and drive to the rear gate, which, of course, is always locked. The taxi driver drops the supplies outside of the gate. Mihail, knowing I am coming, is on the watch. He opens the gate, admits me and the supplies, and locks the gate again. It is all very simple."

"On those days, and others, you arrive here between two and half past two. You go to your desk at once?"

"Yes," Hope's amazement was growing. To this visitor she seemed the important figure in the household. His predecessors had shown no such interest in her. Her impression that the visitor was either sparing for time or was deliberately making the conversation an excuse to study her deepened into a conviction. Yet what object could he have?

"You yourself see every one who comes? You yourself pay cash for all supplies purchased?"

"Yes. No one comes except the doctors—and I have an accurate record of all expenditures for my reports."

He waved a thin hand, eliminating this side issue.

"Have you any reason to believe that the house strikes any one as in any way peculiar, that the neighbors—shall we say—think there is anything unusual about it?"

Hope was relieved. They were now getting into the usual channel of such interviews.

"The doctors may think it unusual. I don't think any one else considers it at all. New Yorkers are much absorbed in their own affairs. I fancy the neighbors assume that we're what they'd call 'a bunch of foreigners' living in our own way. They see me come and go, but no one else leaves the house except Doctor Phelps, who looks in on the Tartar every day or two. In New York, as I've said, one pays little attention to one's neighbors," she again underlined, having learned in previous interviews that this was a point to stress.

He seemed not to hear her last words.

"The Tartar?" he repeated curiously.

"Yes, the Scarwenka's little nephew. I call him the Tartar because he's such a high spirited, fierce youngster. His puppy is taking the fine polish off your shoes this moment," Hope lightly mentioned in passing.

The man looked down at the puppy, and a black frown submerged him. His obvious irritation was surprisingly large for so small a cause. He impatiently toed the puppy to one side, but the animal, joyously accepting the movement as a challenge to a game, again sprang upon a polished shoe. Neither Hope nor the Scarwenka paid any attention to the incident. To them all the puppy was a privileged thing—the treasured possession and boon companion of the little boy. No one, surely, could be annoyed by a puppy.

"Ah," the visitor murmured, "the little boy. You call him the Tartar? Quite so." He rose. "You have, I understand, an office? Shall we go there?"

It was the usual suggestion at this point of the interview, and the Scarwenka accepted it as their cue to come forward to offer their refreshment of coffee, wine, and cigars before the move was made. The visitor declined the tacit invitation with an impatient wave of his shapely hand. He had risen, and his narrow gaze was on the girl before him. He stood back, erect and military, to let her pass him, while Scarwenka opened the door for them both.

It was at this point that the unfortunate puppy destroyed what otherwise would have been a perfectly delightful exit. It got between the girl's feet. The latter stumbled, saved himself from a fall by clutching the back of his chair, and with a quick oath raised his foot and kicked the puppy out of his path.

My summer girls vowed to be true

**THE EDITOR'S GOSSIP SHOP.**  
We herewith announce a new series which should interest all of our readers. You know that we have run, regularly, contributions by Dr. Walter E. Traprock, the noted explorer. Now and then some readers have written articles in the manner of Dr. Traprock, some approaching his in excellence. Therefore, we thought it would be a great idea to allow you to contribute to a series of adventures, in which the hero shall be Dr. George A. Baldpate. Contributions should be no longer than 125 words, 100 words preferred. In order to re-acquaint you with the style and punch we like, we shall for the remainder of the week, reprint some "Traprock" adventures which can serve as a guide to you. Announcing Dr. George A. Baldpate. Stand by!

And not one of them knew me from Adam. —Emily Garrett.

**Didn't Need Any Help.**  
Bob: "Too many cooks spoil the broth, they say." Newlywed: "I would defy too many cooks to spoil my wife's broth." —Marguerite Schwartz.

**It Takes Time.**  
"Look here, Walter, how about that steak I ordered half an hour ago?" "You ordered it very rare, didn't you, sir?" "Yes, I did. What has that got to do with it?" "You'll have to wait a few minutes longer, sir. It isn't quite rare enough yet." —William Leiber.

**Favorite song of the ducks:** "Waddle I Do."

Readers are invited to contribute. All humor—epigrams (or humorous mottoes), jokes, anecdotes, poetry, burlesques, satires and bright sayings of children—must be original and hitherto unpublished. Accepted material

will be paid for at the rate of \$1 to \$10 per contribution and from 25 cents to \$1 per line for poetry, according to its character and value in the judgment of the editor. Unaccepted contributions cannot be returned. All manuscripts must be written on one side of the paper only and should be addressed, The Constitution, Fun Shop Editor, Atlanta, Ga.

**Tender Theatre**—Priscilla Dean in "The White Tiger".

**Alpha Theatre**—"Hit and Run," starring Hoot Gibson.

**Otis Skinner**—(Coming to the Atlanta.)

Otis Skinner will come to the Atlanta theatre on Thursday night, when he will begin an engagement of three nights and Saturday matinee, in "Sancho Panza," a play in a prologue and four acts from the Hungarian of Melchior Lengyel, author of "The Curious." The play, described as a fantastic comedy, has been adapted from several of the popular episodes of Cervantes' immortal work, "Don Quixote." Mr. Skinner will appear as the genial squire, Sancho, who, despite his desire to govern an island in Barataria, Russell Janner, producer of "Sancho Panza," has provided Mr. Skinner with the most elaborate production this actor has ever had in his memorable "Kismet." There are some fifty players, singers and dancers in the cast.

Seats go on sale at box office this morning and at the "Ask Mr. Foster" service at M. Rich & Bros. Co.

## PLAN OF BALDWIN MADE MODIFIED

The plan of N. H. Ballard, state superintendent of schools, to state all teachers of Georgia under the control of the state board of education, was modified at the final meeting of the certification commission of that body at the Piedmont hotel today, according to statements Sunday night.

Leading members of the commission, it was predicted Sunday night, that such a measure would be approved by the state board.

Mr. Ballard's plan in brief called for the issuance of certificates to teachers throughout the state from the state board of education, these certificates to be different types to fit the various grades of teachers.

Heretofore counties have issued the certificates, but the Ballard plan was so radical in its changes that it brought resentment from various quarters, including the Bibb county board of education, which operates its own independent system.

Under the Ballard plan, graduates of colleges and normal schools would be granted certificates on a proper showing. There would be professional certificates and general elementary certificates, but the primary certificates would be abolished.

The committee on certification will modify the Ballard plan so it is believed that it will be acceptable.

On the certification commission are Dr. Rufus W. Weaver, president of Mercer university; Chancellor D. C. Barrow, of the University of Georgia; Willis A. Sutton, superintendent of the Atlanta public schools; Ralph Newton of Fort Valley; Miss Catherine Mills, of Gainesville; Professor E. H. Scott, in charge of teachers training at Georgia State College for Women; and J. H. Miller, superintendent of the Georgia State College for Men.

On Tuesday there will be a meeting of the state board of education, which the report of the certification commission will be made.

Members of the state board of education are Governor Clifford Walker, N. H. Ballard, state superintendent of schools; Dr. E. J. Forrester, of Spaulding; Dr. J. W. Weaver, president of Mercer; Superintendent E. L. McCarty, of Blakely; and Harold Saxon, of Moultrie.

On Tuesday there will be a meeting of the state board of education, which the report of the certification commission will be made.

## JAIL IN CHATHAM FREE OF INMATES SENTENCED TO DIE

Savannah, Ga., October 12.—For the first time in a number of years the Chatham county jail is without a prisoner under sentence of death.

There are a number of prisoners in the old building connected with serious crime, but the highest sentence at present is that of life imprisonment.

When Walter Lee, convicted of criminal assault, was hung in the jail the last hanging in Chatham county occurred. B. H. Rawls, Caesar Lugee and Peter Harris are in the jail under sentence of life imprisonment, but they have appealed for new trials.

Ben Charlton was the last of the death prisoners in the jail. His sentence was commuted to life imprisonment.

Captain W. M. Kidwell, deputy jailer in charge, said Sunday that during the 11 years he has been connected with it, he does not remember the time when there was not at least one man under the death sentence in its walls, either from Chatham county or some other county.
